PRESIDENT’S MESSAGE

Sh. Manipal Dhariwal

SACC completed its 2 successful years. Our initiatives could have not been accomplished, without your blessings and on ground support. Your support has helped us to be much more determined, and remain firm on our vision i.e. to " improve the condition of mankind, through the medium of entrepreneurship:

This year, with the help of our Global partner, UP Global, we were able to complete 7 Startup Weekends successfully in Chandigarh and Punjab region. Our team, through successful 60 events last year sensitized directly over 10000 students and professionals thus paving way for networking and startup opportunities for wanna be entrepreneurs, students, professionals from our region.

As you may know, most Startups struggle for a affordable space and apt environment, to park their business. Considering this need of the young aspiring entrepreneurs and start-ups, I on behalf of my team is proud to mention that, SACC has erected the first ever Co working space in Panjab, named: Startup in a BOX in Mohali. Spread over 3000 square feet, this space is a plug and play facility, for all who wish to aspire to be entrepreneurs, they can park themselves on a monthly subscription basis and at a very nominal fee. At Startup in a Box, they have access to unique facilities like: monthly, dedicated mentoring from industry experts, creative and motivating work environment, Internet access, electricity and Air-conditioning, conference room facility, Startup Library (books & Videos) and a lot more. To more on SIB : www.startupinabox.in

Building Startup Knowledge has been on our radar, for helping startups grow vertically. We at SACC believe that, Knowledge is the key to any effective process and model of growth, SACC and its team has been building content and easy to understand information of local and regionalised relevance. SACC has setup, SACC UNIVERSITY, an online education portal. Under this portal, SACC has developed various modules, courses on basic topics for Startups support, be it be : setting a Sales Channel, Online/Conventional marketing, Accounts, roadblock and challenges, Branding and PR, how to get work, funding and Startup Capital, Quality assurance, Legal hassles and Compliance, HR, maintaining a brand etc...this information can be accessed at the following link http://university.saccindia.org/login/index.php

We aim to have a successful run in 2015, by nurturing more and more Startups and build sustaining ecosystem for them

Looking forward to your continued support and blessings

Manipal Dhariwal
ABOUT SACC

SACC is a non-profit, like minded community of selfless citizens of India based out of Chandigarh and Panjab region. The SACC community is committed to community service and work towards the cause of promoting entrepreneurship and stimulating a Startup friendly eco-system. The SACC Community includes, employed, entrepreneurs, working professionals, Media persons, creative professionals and many diverse and accomplished individuals. SACC team aims to bring a change in developing the Startup eco-system Pan India, with a primary focus on Panjab and Chandigarh region. SACC started its operations in Chandigarh/Punjab region in early 2014. SACC is head quartered in Mohali, Panjab, India SACC is a Non Profit entity working for the cause of promoting entrepreneurship and stimulating a Startup friendly eco-system.

SACC, has an active association with Startup Weekend, a world renowned forum for encouraging Startups, through business ideation. SACC has carried by now over 6 effective Startups Weekend programs in Chandigarh, Panjab and Uttrakhand leading it to sensitize, over 5000 individuals, students and professionals, encouraging and awakening them about Startup Weekend. Our efforts have proved some great results, as SACC has now over 115 Startups being mentored directly and remotely. (Graph of Startups region wise enclosed in this report).

SACC through its strong pool (http://www.saccindia.org/india/aboutus/the-core-team) of voluntary mentors, industry experts, entrepreneurs who have a combined experience of 10-20 years in the fields of Information Technology, Manufacturing, Services Industry, innovation, product engineering, Media & PR, Education, Agriculture and alternative energy solutions can add value to the ventures of such aspiring individuals specially at a grassroots level, especially in states like Panjab, Haryana, Chandigarh, Uttrakhand and ultimately at a pan India level.

WHY AND WHEN WAS SACC FOUNDED

Startup Accelerator Chamber of Commerce was founded by Mr. Manipal Dhariwal and Co founded by Sumeer Walia and Mr. CJ Singh in 2014 in Panjab. The intent of this voluntary initiative was to purely help, nurture, mentor, and network and guide the Startups and SME’s going through various challenges in scaling and setting up their Business Ideas. The SACC team realised that there was a huge need of action at Grass root level to cater to the queries and needs of these aspiring Startups, be it be mentoring, space needs, funding needs etc. SACC team identified the need of an active local, private and a voluntary body being responsible to create a Startup focused eco system. Since summer 2014, SACC has grown its community manifold and has been able to establish in the region as one of the most trusted and sorted not for profit body fostering entrepreneurship. SACC has completed over 60 events in just 19 months, which include 6 World famous Startup Weekends (Enclosed in the report a special section on Startup Weekends and SACC’s partnership). SACC’s active and voluntary pool of Mentors/Professionals/Entrepreneurs is growing with tremendous passion as the pool believes in such a cause, which is selfless, need of the hours and undoubtedly and exciting area to deliver and
share knowledge. SACC has an active action going on throughout the year. It does regular networking events, workshops, seminars on entrepreneurship awareness. SACC brings diverse topics to deliberate, mainly developing a viable business plan, opportunities to fund a startup/business, value of bootstrapping, building good Teams, Tech transfer, Finance, Compliance, and understanding region specific regulations etc.

STARTUP IN A BOX

In our interactions with Startups in Punjab, we understood their needs, one of them being a productive environment to work. We came out with Co working space concept for Startups at Mohali, by the name Startup in a BOX. This physical working space provides complimentary one to one mentoring, space both private cabins and individual Seats at affordable monthly subscription. The facilities include Wi-Fi connectivity- state of the art infrastructure, meeting facility, branding and networking opportunities. Startup in a Box Community have formed their own club SIB for social and knowledge sharing events. The SIB Startups have access to all events by SACC.

STARTUP EDUCATION:

Startup Education, A SACC Initiative for grass root startups:
Through SACC M Learning initiative for educating Startups. SACC aims to build region specific education for entrepreneurs, clinical knowledge, and information base for early stage Start-Up’s. SACC works round the year to Identify and support New Business Enterprises, Develop Business Ideation at School/College Level, Encourage Innovative Startup’s, develop and encourage Women entrepreneurs, develop a framework that creates Jobs. Our goal is to develop an active community of Startups and entrepreneurs.

What does a young entrepreneur seeks?

A grass root, young, aspiring entrepreneur looks for correct basic knowledge on various aspects on starting a business. He/She need sincere hand holding, it could be Legal help in constituting his business, advisory, cash flow and accounts, team building, building knowledge, skill matching for his business, funding guidance and source, branding and marketing knowledge and tools, technology compliance and a lot more startup based nuances.

SACC’s LARGER VISION:
SACC is committed to a Pan India movement in building Startup Education for aspiring entrepreneurs that will make their struggle to their successful startup easy and precise.

SACC ADVISORY TEAM
Mr. Marc Nager-Adviser, SACC

Chief Community Officer –Techstars formerly UpGlobal
Seattle, USA.

Marc firmly believes is that to create is to be human. In every corner of the globe, entrepreneurs are creating the futures for themselves, their families and their communities. Entrepreneurship is the most powerful force that can transcend any political, social, or geographic boundary. We are community builders with a specific end goal - the creation of more meaningful and lasting companies. We have developed leveraged activation models to empower local community leaders that have a real impact. We have the opportunity to make entrepreneurship the legacy of our generation, and I'll do everything I can to make sure we don't just talk about making it a reality-Marc Nager.

She has strong interpersonal skills, that makes her a perfect person for Operations and Sales. She handles the Cruise Sales and Cruise Planning section of Cruise Rover.

Arnav Jain-
SACC Student and Innovation Committee Member

Arnav is a student of class 12 in St. John's high School, Chandigarh. What makes him special? He was the youngest participant of the first batch of TYE (The Young Entrepreneurs) programme held in New Delhi in 2011. He was in Class 9 at that time and had to seek special permission to participate in the programme, as he was under age for the programme. Such was the drive in him, that he used to commute to Delhi every Sunday to attend the course! And he did justice to it too, as his team won the National level competition by presenting its business plan 'Lavacro'. His team went on to win the third place in the International competition held in the US.

An avid photographer, Arnav likes to shoot Nature at its best. While he is working hard to get admission to one of the coveted Schools for a computer programme, he relaxes by playing the
occasional guitar. He's also been the Editor for his school magazine and expects his networking skills to hold him in good stead in his future life!

Punjab Summit: 17 startup innovations to change world’s economy

- Hindustan Times, SAS Nagar
- Updated: Oct 29, 2015 13:36 IST

The concluding day of Progressive Punjab Summit-2015 witnessed an absorbing session on startups where youth from adjoining technical universities flocked to listen to 17 innovation ideas incubated during three-day long startup accelerator held at IT park Chandigarh.

Young innovators lecturing investors having more than 30 to 50 years’ experience in running and managing industries was the highlight of the technical session held on Thursday.
As the innovators were seen sharing their vision for a different future enabled with low investment and high output ideas, some of them presented home kits for cervical cancer detection, management of the kitchen waste and handling the paucity of currency coins.

Yatin Thakur from Startup Weekend US said that the session Startups was culmination of the Startup Weekend program organized on October 23 and October 24 startup activities and booster camps that were held across the Punjab in varied universities’ campuses selecting 17 teams that stood out in their innovation techniques that Progressive Punjab Investors’ Summit 2015 held in collaboration with the Startups Accelerator Chamber of Commerce (SACC). The ideas were churned out by the energetic youngsters who showcased their talent, which when implemented has the potential to change the way we think today.

KS Bhatia from Pumpkart strongly felt that Punjab is leading the way by focusing on developing a suitable ecosystem by promoting entrepreneurial youth of Punjab through its favorable policies in setting up a business and ensuring a strong enabling eco system. Young investors thanked the deputy chief minister Punjab Sukhbir Singh Badal for providing them platform for global exposure and opportunities.

Innovation of home kits to detect cervical cancer in women at cost of 5$ was hailed as major revolution in field of medical sciences. Swaypay team presented its novel idea of offline wallet that would transform the way we handle currency coins today. The jury of event suggested Swaypay team to get its idea patented. Bento Tiffin team presented the affordable way of getting access to homemade food or tiffin system at just a click of the button, while Ctrl P team talked about providing Xeroxed papers at less than 50 P per copy. Team of young innovators presented ways to create wealth from waste by collecting and processing kitchen leftovers into organic manure and another team presented innovative business idea of using Helium propelled balloons for displaying advertisements in commercial settlements like malls.

Providing its critical feedback with shared their life-long experiences, the panel adjudged best and most sustainable idea of providing home kits for early detection of cervical cancer as the winner. The panel of experts who selected the winner included KS Bhatia from Pumpkart, Dr Dinesh Dua from Nectar Life Sciences, Rajeev Rai CEO and Founder QA Source, Professor Sidharh Singh from ISB, Samar Singla from CEO Clicklabs and Parag Gopal from HDFC.

The finance minister, Government of Punjab Parminder Singh Dhindsa felicitated the winners of competition with the chief parliamentary secretary (CPS) NK Sharma. Prominent among others present included CEO Invest Punjab Anirudh Tiwari, joint CEO Invest Punjab Manjit Brar.

During the Progressive Punjab Investors Summit 2015, Invest Punjab and SACC joined hands to showcase some of the successful Punjabi startups and provide some of the budding startups a stage to present their ideas.

The final selected idea(s) will be given support by facilitating tie ups with the financial institutions, providing working space in the incubation center and mentoring by some of the industry leaders in their respective sectors.
Deputy Chief Minister of Punjab, Sukhbir Singh Badal announced a startup fund of $15 Mn (INR 100 Cr) for young entrepreneurs at the valedictory function of Progressive Punjab Summit, 2015.

The summit was held at the Indian School of Business (ISB), SAS Nagar (Mohali) on 28th - 29th October. The campaign celebrated the spirit of Punjabi enterprises and positioned Punjab and India to do business. The summit entailed discussions on taking steps in building efficient processes, eliminating administrative hurdles and enacting favourable policy initiatives.

Panelists in the summit included K S Bhatia from Pumpkart, Dr. Dinesh Dua from Nectar Life Sciences, Raveev Rai, CEO and founder of QA Source, Prof. Sidharth Singh from ISB, Samar Singla, CEO of Clicklabs, and Parag Gopal from HDFC.

According to KS Bhatia, Punjab is slowly developing a suitable ecosystem for startups by promoting the entrepreneurial youth of Punjab and through its favourable policies in setting up a business and ensuring a strong sustainable eco system.

Invest Punjab and SACC also have joined hands to promote some of the most successful Punjabi startups during the summit. It has also announced its plan to provide upcoming startups with a platform to present their ideas.

The Deputy CM called upon all ‘born in Punjab’ industrialists to invest back in the state, especially the ones who have settled out of Punjab or abroad. He stated his plans to reach out to all such industrial heads in the near future and request them to establish units of their companies in their home state.
The concluding day of the summit hosted an absorbing session on startups. 17 innovative ideas were presented infront of the panellists. There were a varied range of ideas – from cervical cancer detection home kits for women to managing kitchen waste to handle currency coins, the focus was on building a sustainable future through low investment and high output ideas.

The session was a summation of the Startup Weekend Program organized by Startup Weekend US on October 23rd and 24th.

Shwetika Kumar, a Boston university alumni, emerged as the winner with her idea on home kits to detect cervical cancer at a nominal cost of $5. She along with the other winners, were facilitated by Parminder Singh Dhindsa, Finance Minister, Government of Punjab.

The winning ideas have been promised a support system by tying up with financial institutions, facilitated by the summit.

Progressive Punjab summit to focus on startups

TNN | Oct 15, 2015, 09.43AM IST

CHANDIGARH: Progressive Punjab Investor Summit 2015 scheduled for October 28 to 29 in Mohali will focus on startup businesses in the state by providing budding entrepreneurs an international platform to present their innovative ideas before those who have already made a mark in the industrial sector. It is for the first time that the summit is joining hands with Startup Accelerator Chamber of Commerce (SACC).

An official spokesperson said that 'Startup Weekend Punjab' will be a 54-hour new business ideas marathon to be held at Entrepreneurship Development Centre, IT Park in Chandigarh. The final business idea would be showcased before eminent guests from all over the country and prominent jury from industry, finance and academic backgrounds at the Indian School of Business (ISB), Mohali, on October 29.

The winners at this enterprise would be provided with free working space and bandwidth for six months
up to one year by SACC, Software Technology Parks of India (STPI) and Progressive Punjab. Besides, all participants would be awarded with certificates. Google and Amazon being the partners of Startup Weekend Globally would award web/tech support prizes to participants.

Recent happenings to have no impact on Investor Summit: Sukhbir

Punjab Deputy Chief Minister Sukhbir Badal on Friday claimed that the recent happenings would have no impact on the upcoming Investor Summit, scheduled to be held on October 28-29 at Mohali. Sukhbir, after attending the bhog (culmination) ceremony of akhand path, (recitation of hymns) at Gurdwara Jamni Sahib in Rajoindar village, claimed that more than 100 industrial giants would give their nod for investing in the State.

He said that the recent happenings, such as the sacrilege of Guru Granth Sahib, have caused immense pain not only to the Sikh community but also to the humanity as a whole. He prayed for strengthening communal harmony, peace and amity in the State.

Sukhbir, also the SAD president, emphasised that the sole motive of the Punjab Government is to put the culprits responsible for these reprehensible incidents behind the bars and bring out the truth before the public.

Assuring the people, Sukhbir said that the State Government is fully committed to maintain peace and communal harmony in the state and nobody would be allowed to vitiate the atmosphere.

He said that the police is investigating the incidents minutely so as to get to the root of the problem.

The motive behind the sacrilege incidents of Guru Granth Sahib is to weaken the State, Shiromani Akali Dal, Akal Takht Sahib and Shiromani Gurdwara Prabandhak Committee (SGPC), but the entire Sikh community and the Punjab Government would not allow the nefarious designs of such anti-social forces to succeed.

On the attacks on the SGPC members, MLAs of SAD, the Deputy Chief Minister said that this is a “deep-rooted political conspiracy”.

He announced that the akhand paths would be performed in every Vidhan Sabha constituency in order to strengthen the ties of peaceful co-existence and communal harmony.

"The Government had chalked out a comprehensive plan for the development of the State in accordance with which every Vidhan Sabha constituency was to get Rs 50 crore for making Punjab a model State but some political forces inimical to the development, are fanning the fire of communalism to derail the all-round development of the State," he said.

He appealed to the people to keep calm and assured that the State Government would take severe action against the people responsible for these dastardly acts.

Punjab BJP president Kamal Sharma, while terming the sacrilege of Guru Granth Sahib as an act of anti-social forces, said that such people have no religion. He appealed to the people of Punjab to maintain their calm and beware of the rumours in this difficult time.
WARM-UP SESSION FOR INVESTORS' SUMMIT BEGINS

HT Correspondent
lettersch@hindustantimes.com

CHANDIGARH: Invest Punjab's additional chief executive officer Manjit Brar on Friday inaugurated a preliminary session as a warm-up to the Progressive Punjab Investor Summit scheduled for October 28-29 to attract global investors to Punjab.

Brar presided over the session at the IT Park here, which was attended by senior officials and local entrepreneurs of Chandigarh and Punjab, doing a review of the entire scenario for the upcoming mega event, a spokesman here said.

The session mooted the concept of "54-hour weekend marathon deliberations on the new business ideas" that would continue for the next two days, the spokesman said.

The weekend session, sponsored and organised by a group of private entrepreneurs of the region, would discuss ideas to motivate and guide the youth of Punjab and the northern region for their career development, he added.
Progressive Punjab Summit 2015: Sukhbir Singh Badal announces startup fund of Rs 100 crore

Honorable Vice Chancellor Prof Tankeshwar with Ms. Nitika Khurana from SACC lighted the startup torch. The auditorium brimmed with the audience of around 300 students who took active participation during the entire session. 12 enthusiastic teams pitched the ideas diverse in nature, from creating library bank to developing community for antique lovers. Team with idea based on developing online portal for easy access to labors stood first and team with idea on conveyor belts for old age people and specially able was adjudged as runner up. A lot of support and motivation was witnessed from the management to initiate startup hubs in the university campus to give aspiring young entrepreneurs a boost.
HAU Hisar conducted a boot camp under Happening Haryana Initiative on 10th Feb, 2016. The event witnessed two separate sessions for boys and girls respectively. 12 boys whereas 13 girls have been shortlisted to participate in SW Gurgaon / SW Kurukshetra. 350 students participated in the boot camp activity.
A Bootcamp Session under the Happening Haryana Initiative was conducted at MDU, Rohtak on 11th Feb, 2016. The event had a gathering of 200 students who formed 12 teams. The winning team is shortlisted for SW GURGAON whereas the teams at 2nd and 3rd position are qualified for SW Kurukshetra. The enthusiasm shown by students has been tremendous in the State of Haryana.
The Startup Culture has started taking shape in the vibrant State of Haryana, in the last one month the State has been extremely active in reaching out to academic institutions in the Haryana State and conducting Startup activity through Bootcamps. Today Startup Accelerator Chamber of Commerce conducted another Bootcamp at Government College Sector 1 Panchkula. 13 teams formed 13 business ideas. A jury of three distinguished guests which include Sangram Singh, a young successful entrepreneur in Pharma business from Panchkula, Sh Narinder Bansal an IT Business Entrepreneur and CJ Singh, Vice President SACC was formed. The jury as a standard procedure picked up two best teams. The one that came first in this pre lim round was an all-women team named POWER OF GIRLS from Haryana, their shared their idea on generating employment for poor women and building moral values by involving Senior citizens. The second team that came was all boys team that pitched the with a team name Indian Empire, some domain focused into delivery services. As a protocol, Honourable Chief Minister Sh. Manohar Lal Khattar ji video message was played along with the Startup Torch lighting ceremony which was done in the graceful presence of Dr. Archana Mishra- Principal DAV College Sector 1 Panchkula. The Bootcamp was conducted by SACC team of Sh. Sumeer Walia and Ms. Sukhmani Samra.

Next Sessions:
- Government College- Panchkula
- Ashoka University-Sonepat
- Central University-Mahendargarh
Startup Women Haryana @ Kurukshetra University, Happening Haryana 2016

Startup Weekend yet again witnessed a tremendous turnout, primarily from the students of Kurukshetra University and National Institute of Technology. The major aim of the event was focused in the interest of women, empowering and uplifting the women folk of the state of Haryana. Amongst the huge spread unrest, violence and agitations across Haryana, it could not deter these women from showcasing their talent in the startup weekend Kurukshetra. Filled with unmatched enthusiasm and energy, the turn up and response was an overwhelming one. As far as the culture of Haryana is concerned, the women were ethnic yet well rounded individuals with zeal to win.

The ideas and innovations brought by the participants were fresh and unconventional, reflecting the amount of research and diligence that went into them. From presentations, surveys, market research, business strategies, cost structures and implementation, were some of areas touched upon by the respective teams. Some amazing ideas with prototypes ready were presented by the students. Many major sectors were covered ranging from farming, engineering, and commerce to research and development.

Women took the stage with confidence guided by determined will and clear vision, to bring about a drastic change in this male dominant state. Haryanvi women have the potential to be great entrepreneurs, a little support in the form of education, infrastructure facilities and societal openness, could unleash an ecosystem of startup in Haryana, as witnessed by the rest of the country. Such platforms if provided to the youth, women in particular, would certainly change the face of Haryana.
STARTUP WEEKEND, GURGAON

Startup Weekend, Gurgaon held under the aegis of ‘Happening Haryana’ and Startup Acceleration Chamber of Commerce(SACC), turned out to be a life changing event for many. One of the highlights, being the enormous student participation, from every nook and cranny of the State of Haryana. Rohtak, Sirsa, Kurukshetra, Chandigarh, Sonipat, Panipat, Hissar, are a handful amongst many cities.

The environment throughout the event was insistent and competitive, owing to the large proportion of the participation coming from top notch colleges. The presentations by these great young minds of the country were truly innovative and futuristic. Moreover, the level of vigor, confidence and groundbreaking ideas among the participants amazed even the jury members. As it’s generally said,”Where there is a will, there is a way” these students surely possessed unbeaten will and startup weekend directing and paving the way by providing this platform. More initiatives, like these, carry the ability to revolutionize the state of Haryana.

Addressing the major concerns of the participants, the government should not limit the mentoring and support in the form of opportunities, finance and infrastructure. Instead, they should be guided throughout their endeavor. Providing incubation centre’s and connecting them with the right people, would come as a great relief to these budding entrepreneurs of the state. Emboldening and smoothening the way today for them would reap manifold benefits in the future.

There is a new ray of hope among the youth of Haryana to get mentored and technology and financial support to build sustaining and employment generating Startups.

Sukhmani Samra-22- Volunteer at Startup Weekend-Economics graduate from SD College Chandigarh 2015.

Compiled by SACC Team. Feb 29th, 2016
Experience shared by Ankit Bhateja who runs his research and science based Startup XOVION. He is from Faridabad and was an Organizer at Startup Weekend Haryana.

About Xovian.com: Cansat Satellite Designing and launching workshop

The Haryana Government took a step forward with the second finals of the startup weekend that took place at North capUniversity formerly known as ITM Gurgaon. Over 100 students from all over Haryana participated in the 3 day event with an unexpected 70 pitches on the day 1, of which 15 were shortlisted in order to make the teams and take it to the further filtration process. On the second day of the event well experienced mentors from the corporate world tried to help the teams with their suggestions and solutions to the problems faced by the teams in their business ideas. The 3rd day of the event resulted in the selection of top 10 teams with the mock presentation rounds for the main event on 8th of March at Happening Haryana Global Investors Summit 2016 at Leela Ambience, Gurgaon.

On the day of the final event at Leela Hotel the top 10 teams pitched their ideas in the fully packed hall charged with the entrepreneurial Zeal and energy. CM of Haryana Sh. Manohar Lal Khattar, finance minister, Captain Abhimanyu, Education minister Ram Bilas Sharma along with other dignitaries from the political and corporate world were present during the event. The 1st position was bagged by the team Tag-on which aims at providing a low cost monitoring device that can be used to track the location of any object with the help of GPS and Bluetooth. The second position was held by the team Farm-net which aims at providing an app based platform to the farmers which will provide assistance for growing the crops to obtain maximum yield and will also connect them with the market. 3rd Team was Blood Line that aims at providing an app based service to connect the blood banks, hospitals and the patients in case of emergency. The top 3 teams will get financial help from the govt. along with incubation and mentorship facilities from the SACC and NASSCOM in order to take their ideas to next level. Annexed to this CM Manohar Lal Khattar announced a prize of 51k for the team Life Hacks who stood 4th, 31k for the team Yellow Tree who stood 5th and 21k for the seventh team Vahana whereas a token amount of 21k for all the teams was announced by the education minister. In his speech CM Manohar Lal tried to encourage the students by sharing the story of the days of his struggle during the childhood. While referring to a quote of Swami Vivekananda he urged them not to stop till they find their Goal. Education and Finance minister also urged the youth to come forward to solve the modern day’s problems and assured them of providing all possible help from the govt.

The event in its last phase took a twist when an old aged person sitting in the audience came forward to say a few words turned out to be the oldest living IITian passed out of IIT Mumbai. In his speech he urged the youth and entrepreneurs to come up with some innovative ideas to tackle the global problem of climate change and other devastating changes going in the nature. As we know that the planet is warming up fast—faster than at any time scientists know about from their studies of Earth’s entire history. Global average temperature is one of the most-cited indicators of global climate change, and
shows an increase of approximately 1.4°F since the early 20th Century. So it becomes the need of the hour for the innovators and entrepreneurs to come up with some unique ideas that can disrupt the market and create an echo of sustainability for the planet.

With the rising efforts of the Haryana govt. in the field of innovation and entrepreneurship we can see Haryana emerging out to be a hub for the innovative startups which will not only create ample job opportunities but will also bring a stability in the market. The event has created a new milestone in the history of the Global Summits taking place in the country and will now set a new standard for the forthcoming events that will take the nation to the horizons of the Development.

Happening Haryana Experience shared by Ankit Bhateja who runs his research and science based Startup XOVIQN. He is from Faridabad and was an Organizer with SACC at Startup Weekend Women held at Kurukshetra University- 26th-28th February 2016.

ON STARTUP WEEKEND WOMEN:

Our country is a home for almost 3100 startups starting per year standing just behind US, UK and Israel according to the NASSCOM report of 2015. If the growth is continued on the same pace then it is expected that Indian tech startups will generate almost 2.5 lakh jobs in the next five years and by 2020 India will be a home to 112 million working population falling in the age bracket of 20-24 years as compared to that of 94 million workers of China.

Keeping this need of time into consideration After the ambitious 'Make in India' drive, Prime Minister Narendra Modi in his Independence Day speech had announced a new campaign 'Start-up India, Stand up India', aimed at promoting entrepreneurship in the country. It was a personal honour as 22 year old to attend and be invited at the Startup India campaign which was launched on 16th January creating the new hopes for the young entrepreneurs and the youth of this country.

Following the footsteps, Haryana Govt. also launched a campaign to create a startup ecosystem in the state by providing a platform to the young Entrepreneurs with the help of Happening Haryana Global Investors Summit 2016 held at Leela Ambience Gurgaon. SACC along with Startup weekend initiated the movement by taking the Startup torch to the different educational institutions of the state and filtering out the best entrepreneurial talent from the state. This 4 month startup drive not only created new hopes for the youth Haryana but also provided them a platform to present their business ideas.

The first finals of this drive held at Startup Weekend Women at Kurukshetra University from 26th to 28th February with a remarkable 60% women participation from all across the Haryana. With almost 90 participants the land of Mahabharata once gain emerged as a battle ground when the 3 day program witnessed around 23 teams pitching out the best of their ideas of which top 3 were selected after 2 phase elimination process. At the second day each team got a chance of clearing their doubts and seeking guidance for their ideas while interacting with mentors who guided them with their experience in their respective fields. On the third day the First position was bagged by the team "Hello Vision" under the leadership of Nitesh, a girl from Sirsa who made a low cost device for eye exercise which she claims to be helpful for the eye related problems, if the device is really capable of what it is claimed to be then in the country with more than a million facing eye problems, it will not only create a huge market but will also solve the eye problems at home itself. The second position was shared by two teams "Agro Smart" and "I-crops", Agro Smart will provide the farmers a solution to obtain maximum yield in the minimum area of land and I-crops will provide a technology for monitoring the crop health with the help of sensors. The third position was also shared by the two teams, "Boond" which aims at providing low cost water filtration system for the rural areas and the other one is "Take it easy" a logistics startup which aims at providing the delivery services to the remote areas.
The history of agriculture in India dates back to the Rigveda. Today, India ranks second worldwide in farm output. Agriculture and allied sectors like forestry and fisheries accounted for 13.7% of the GDP (gross domestic product) in 2013, and more than 50% of the workforce. But the farmer of this country still remains in the dilemma with decreasing area of cultivation due to increasing infertility and lack of technical knowhow with a never ending debt on the other side. The toxicity and decreasing level of ground water is also a major issue. The National Crime Records Bureau of India (NCBI) reported in its 2012 annual report, that 135,445 people committed suicide in India, of which 13,755 were farmers (11.2%). If these innovations finds a way to this primary sector with the help of sufficient funds and mentoring it will not only solve the majority of these problems but will also create a boost in the Indian economy.

With the campaigns running across the country startups are adopting innovative approaches to attract and retain top talent. Women entrepreneurs are starting to become more prominent in the innovation economy but still, there remains a need for directional efforts to help increase supportive government policies (ease of doing business, tax incentives, participation in Government etc.). With the startups concentrating more towards the IT domain there remains a need in the hardware, service and other major sectors in an import dominant country like India. Sectors with the future scope like disaster management, climate change, fuel & energy, biotechnology, transport etc. also remains untouched. In the upcoming days this growing startup ecosystem in the country will not only provide a balance to the economy but will also create ample job opportunities with a sense of self sustainability in the market. With the current govt. taking more favourable efforts towards creating a startup friendly environment, we can expect these changes in the upcoming months and years.

Recent happenings to have no impact on Investor Summit: Sukhbir

PNS ■ FEROZEPUR/CHANDIGARH

Punjab Deputy Chief Minister Sukhbir Badal on Friday claimed that the recent happenings would have no impact on the upcoming Investor Summit, scheduled to be held on October 28-29 at Mohali. Sukhbir, after attending the bhog (culmination) ceremony of akhand path (recitation of hymns) at Gurdwara Jamni Sahib in Bajidpur village, claimed that more than 100 industrial giants would give their nod for investing in the State.

He said that the recent happenings, such as the sacrilege of Guru Granth Sahib, have caused immense pain not only to the Sikh community but also to the humanity as a whole. He prayed for strengthening communal harmony, peace and amity in the State.

Sukhbir, also the SAD president, emphasised that the sole purpose of the Punjab State, Shiromani Akali Dal, Akal Takht Sahib and Shiromani Gurdwara Prabandhak Committee (SGPC), but the entire Sikh community and the Punjab Government would not allow the nefarious designs of such anti-social forces to succeed. On the attacks on the SGPC members, MLAs of SAD, the Deputy Chief Minister said that this is a "deep-rooted political conspiracy".

He announced that the akhand paths would be performed in every Vidhan Sabha constituency in order to strengthen the ties of peaceful co-existence and communal harmony.

"The Government had chalked out a comprehensive plan for the development of the State in accordance with which every Vidhan Sabha constituency was to get ₹25-50 crore for making Punjab a model State but some political forces inimical to the development are fanning the fire of
Progressive Investor Summit warms up with start-up meet

DP Correspondent
Chandigarh

Progressive Punjab Investor Summit got to a warm up session with the Invest Punjab in association with Start-up Accelerator Chamber of Commerce starting business ideas competition programme as a part of start-up weekend Punjab that started on Friday at EDC situated at IT Park. Inaugurating the event, Marjot Singh Brar, Additional CEO, Invest Punjab and MD, Milkfed, said the start-up summit is as per the vision of Deputy Chief Minister Sukhbir Singh Badal who has envisaged that Punjab should be employment generator rather than employment seeker.

He said that the start-up New Business Ideas marathon conducted on any given weekend, from Friday to Sunday. He said that Start-up Weekend Worldwide has been conducted in over 100 countries and has created over 15,000 business ideas and over 2,000 start-ups from them, some of them successfully. He said that SACC is the regional partner for Start-up Weekend and Techstars USA. “SACC has already conducted five Start-up Weekends in North India, but nothing as massive and exciting as Start-up Weekend Punjab,” said entrepreneur and SACC president further said that to motivate and guide the Youth of Punjab and North for their career development, Invest Punjab in Association with SACC is conducting the first ever Start-up Weekend Punjab at EDC IT Park, Chandigarh from October 23-25.

It was informed that SACC, in the last four weeks has conducted back to back sensitisation sessions for the awareness of this prestigious program at the following universities and colleges and professional hubs in Punjab.

“We are expecting 15 teams this time and a very tough competition, both from students and professionals,” said Sumeer Wala, Director and co-founder, SACC, who has led the SACC team in conducting these sessions.
WARM-UP SESSION FOR INVESTORS' SUMMIT BEGINS

HT Correspondent
letterschd@hindustantimes.com

CHANDIGARH: Invest Punjab's additional chief executive officer Manjit Brar on Friday inaugurated a preliminary session as a warm-up to the Progressive Punjab Investor Summit scheduled for October 28-29 to attract global investors to Punjab.

Brar presided over the session at the IT Park here, which was attended by senior officials and local entrepreneurs of Chandigarh and Punjab, doing a review of the entire scenario for the upcoming mega event, a spokesman here said.

The session mooted the concept of “54-hour weekend marathon deliberations on the new business ideas” that would continue for the next two days, the spokesman said.

SACC believes in catching ‘em young! This year we have spent a lot of time and effort at the grassroots level, reaching out to students in colleges and universities to sensitize them to the concept of entrepreneurship. A case in point is our role in the Progressive Punjab Summit. Startup Weekend Punjab was the result of our collaboration with the Punjab Govt. for the Progressive Punjab
Summit. We had 2 months of hard preparation and conducted over 22 sessions in prominent regional colleges and universities to sensitize students. 17 teams participated in the Startup Weekend Punjab which I am happy to say was a roaring success! We look forward to 2016 and conducting many more such events to keep the startup momentum going!

Best Wishes,
Manipal Dhariwal, President, SACC
The Progressive Punjab Summit
The Progressive Punjab Summit was held on 28-29 Oct. 2015 by the Punjab Govt. at the Indian School of Business, Mohali. This was a focused endeavour to realize the state’s vision for achieving an inclusive, equitable and sustainable growth led by private sector participation.

The summit provided an ideal platform to showcase investment opportunities, multiple regulatory reforms and a thriving ecosystem for industrial development in Punjab. More importantly, it focused on boosting startups in the region. Mr Sukhbir Badal, Deputy CM Punjab announced a startup fund of Rs 100 crore for young entrepreneurs at the valedictory session. Mr Parminder Singh Dhindsa, Minister for Finance & Planning in the Punjab Government was also in attendance.
The role of SACC

During the Progressive Punjab Investors Summit 2015, Invest Punjab and SACC came together to showcase some of the successful Punjabi startups and provided some fledgling startups a stage to present their ideas. 17 teams slugged it out in the race for the most innovative startup idea.
Innovative Startup Ideas

There were some great ideas presented, ranging from waste management to home kits for cervical cancer detection. Shwetika Kumar, a Boston University alumnus presented the winning startup idea for a cost-effective cervical detection kit costing only $5.

The Swaypay Team presented their idea of an offline wallet which would radically change the way we handle currency coins today. The jury suggested the Swaypay team should get its idea patented.

**Furious behind the scenes preparation!**

Before the Progressive Punjab Summit SACC put in a lot of hard work over two months grooming the startup teams. It conducted over 22 sensitizing sessions in premier regional colleges and universities including Thapar, Patiala, IIT, Ropar, ISB, Mohali, PEC and UIET, Chandigarh, Punjabi University, Patiala and Chitkara University among others.

**Startup Weekend Punjab 2015**

Startup Weekend Punjab was a pre-cursor to the Summit and was conducted by SACC in collaboration with Invest Punjab and Startup Weekend. The event was flagged off in style at the Entrepreneur Development Center in the IT Park, Chandigarh at 5 pm on Friday, 23 October, 2015. More than 200 people were in attendance, most of them participants with a sprinkling of guests and dignitaries from prominent colleges, the Government and business leaders. The session was covered over Oct. 23-24 and startup business concepts and plans were discussed and beaten into shape by the teams with active inputs and mentoring from the SACC for the upcoming Progressive Punjab Summit. Most of the teams were from the prominent local colleges where SACC had conducted sensitization sessions. At the inaugural session Manipal Dhariwal, President SACC spoke eloquently on the importance of startups and his vision of raising Punjab back to its glory days through the startup culture. This was followed by a short address by Manjeet Brar, CEO, Invest Punjab. The session was launched by Sumeer Walia, CEO, SACC and Vineet Khurana handled the rest of the proceedings.

About Edurev

Edurev is a free educational network with a Search based crowd-sourced library where students, teachers and professors share, study and upload their notes, video lectures and books. Edurev aims to have an online replica for every Institution and would like to be portrayed as an educational marketplace.

About Comparometer.in

Comparometer is an online portal that lets consumers compare the price of a product or service across different
e-commerce websites so that a consumer can pick the best deal in terms of price. This helps save the consumer’s time and money because she does not need to trawl the Internet in search of the best bargains.

**Facilitating funding for startups**

SACC helped raise more than $100,000 for local startups Edurev and Comparometer.in.

**Startups under the SACC wing**

SACC also has other startups under its wing including Celebrating Being Alive, eWools eCools, Introduction to Kairos, Observe Design, White Sparrow, Natal Wise, color Flames, Sneha Bajwa, dApp Studio, Fiorito, Buddies and Rising Careers.

**iScuela goes national!**

Maninder Singh from Espranza and Bhaskar Choudhuri from Lenovo donate 60 tablets with iScuela Education Software in 2 schools as part of the Support My School campaign as Sourav Ganguly looks on.
Iscuela is a true SACC startup success story. Last year SACC helped team Esperanza with mentoring, networking and guidance on their business development plans through its widespread global network. In March 2014, the Esperanza team accompanied the SACC management in a business delegation to New York, where SACC facilitated the meetings of Esperanza with potential stakeholders and Indian business diaspora for funding.

Today, iScuela is fast developing a national footprint. Esperanza participated in the Season Finale of the NDTV- Coke Support My School Season 3 series. At this event Esperanza officially became the knowledge partner of the campaign. The event witnessed the attendance of many celebrities including Anu Agha (MP, Rajya Sabha), Sourav Ganguly, Ayushman Khuranna & Diya Mirza along with the Esperanza team of first founders Maninder Bajwa and Gagandeep Singh.

The goal of iScuela is to bridge the digital divide and use technology to spread high quality education to even the remotest parts of the country. This mission has gotten off to a great start with Esperanza partnering with Coca Cola and NDTV to join the “Support My School” Campaign. The team will be involved on the ground, with iScuela being distributed on various delivery mediums to improve learning levels. This will help students lay a foundation for a better tomorrow. iScuela would be reaching schools in phases with the mission of scaling the project to 600 schools, leading ultimately to 1000 schools, adopted under the Support My School campaign.

SACC has facilitated affordable co-working space for early stage startups called Startup in a Box at Sebiz Square, Mohali. Launched in January 2015, Startup in a Box became the first ever co-working space for early and idea-stage startups in Punjab.

Spread over 3000 square feet, this space is a plug and play facility for all those who aspire to be entrepreneurs. They can park themselves on a monthly subscription basis here at a very nominal fee. At Startup in a Box, they have access to unique facilities like monthly, dedicated mentoring from industry experts, a creative and motivating work environment, Internet access, electricity and air-conditioning, conference room facility, a Startup Library (books & videos) and a lot more.

Today, in less than 11 months, the SIB has 20 startups flourishing within its precincts. Drawn from various sectors like IT, publishing, travel, ITES, innovation, marketing & branding and manufacturing, the startups thrive in the buzzing environment, free exchange of ideas and stimulating discussions and of course the world class facilities!

ANGEL FUND PARTNERS
YOUR STORY
The City Beautiful, Chandigarh, remains in the news for its cleanliness, strict cops, world-class infrastructure and Punjabi songs. Now it is fast becoming a destination city for startups. Some of the new startups have already caught the imagination of investors and customers alike. Chandigarh-based, Jugnoo, has become the Uber of auto-rickshaws, and Bulbul provides on-demand beauty services.

At this ripe juncture, Startup Accelerator Chamber of Commerce (SACC) has launched itself as a startup incubator and accelerator. It aims to provide mentorship and resources to startups without expecting any equity in exchange. SAAC has been formed by enthusiastic entrepreneurs who are passionate about helping startups. The core team is experienced, dynamic, and its band of members is specialized in diverse areas of business. SAAC was officially inaugurated in July, 2014.

SACC Co-founder Sumeer Walia says, “We do not take any equity, rather we open up the channels for the startups to meet potential investors within our pool. Basically, SACC is like a traffic cop for the entrepreneurs – guiding them in the directions, and even match making. It is both an educator and knowledge provider for aspiring entrepreneurs.”
PRAISE
Happening Haryana
An Invaluable Experience

Happening Haryana an event that changed my life completely. From just a final year student having an idea in my mind to having full strategy and business model ready, its all the result of excellent mentorship and the challenging atmosphere that SACC provided us. Before the boot camp, I had many doubts that whether I should start up, whether my idea will work but after the start-up weekend Haryana and Global Investor Summit, Gurgaon things have completely changed.

The other day when I gave my dad my first visiting card, the feeling was speechless. Happening Haryana actually makes your dreams happen. Meeting professional of the stature of CEOs of top notch companies of India and Worldwide actually lets you test the water of your concept. Presenting your pitch in front of the masters of the industry actually inspires and makes you believe
that you are not taking the wrong road. Starts up are the next big thing in India and events like this are must for students like us to get right direction. At the end of day whether you win or lose, the experience you take home is invaluable. No B-Schools can teach you making business models in such a realistic manner. I would like to thank Sumeer Walia Sir, Manipal Dhariwal Sir, our Director Sir and all the organising team for making such events happen and mentoring us so well.

-Student Kurukshetra University.
PAISE AND EXPERIENCE SHARED BY ANNIKA JOSHI:

It all started when I sneaked into DAV College, Chandigarh for obvious reasons. How many times do you get to have an official vent out of your corporate knack for real? So I showed up in the Startup Workshop there and came out with 3rd prize for the business idea- Gali Cafe wherein me and my team suggested to startup an eating joint where the colorful cultures of India could become one. I for one was enthralled to tell my parents that I won myself a ticket to Startup Weekend set to take place from 4 to 6 March, worth 3500INR!

Then came the Startup Weekend. The 3 days I spent at the architects' paradise- Northcap University, Gurgaon were the most eventful for me in a long long time. It was like a slash of freshness where the excitement was such that despite the fact that we worked so hard that we could sleep for only 3 to 5 hours at night, still I don't know where the pool of energy in me came from! Right from Ankur Sir's balanced push to reach our best, to Sumeer Sir's gentle pat on the back, I can say on behalf of all the attendees that they most definitely made those 3 days super awesome. It wasn't easy to make it up to the finals. I had to compete with 70+ other ideas on the very first day to make it up to the top 13. And that was not it, not only our creativity was tested but also another very significant aspect- people skills were tested when we had to win over people so they join us to make a team for our idea. The whole organising committee is responsible for making us 'Me to We'. Had it not been for their utmost sincerity at work, we wouldn't have been relieved of all the other commotions that might have wasted our time and talent on. All we had to do was just celebrate the free food and free stay they bestowed upon us, and freely think about our ideas and turn them into reality with the best of mentors on day 2. Much respect to the other founders for their innovative ideas which raised the competition right on top. Chiselling the competition, our idea made it to the top 10 teams.

It was hard to wait for the final day of judgement! The experience at The Leela Ambience Hotel, Gurgaon was life changing. Not many experiences I've had have qualified the label of being 'life changing' but what happened there will continue to cheer me up always and forever. Our team was awarded with the 4th position. No words can tell how it felt to pitch the idea in front of dignitaries like the Ministers of Haryana, CEO of Make My Trip and others. Personally, I was on cloud 9 for the compliments I got for the pitching. Where else would innovators straight from Silicon Valley, US would walk up to us and congratulate us. Investors from Abu Dhabi, Kuwait, London, Gurgaon humbled us with the interest they had in our business idea. I am just 20 years old and I have already had a big chunk of the corporate delicacy, all thanks to SACC.

We were all delighted when the Chief Minister of Haryana announced a cash prize of 51000INR, 31000INR and 21000INR for teams at the 4th, 5th and 6th position respectively. It surely was overwhelming for all of us, considering that the Startup Weekend had already surpassed all our expectations. Talking about SACC, now we know there is a place where dreamers like us can ensconce. We would never forget SACC and we know that SACC would never forget us too! We
are in high spirits and might actually make our Startup idea a reality with the generous support from mentors, government and of course SACC.

Looking forward to many more gigs at the amazing camps organised by SACC! Nothing you can even remotely afford to miss..a reservoir of hands-on knowledge awaits you.

Thank You  
Annika Jotshi-DAV College Chandigarh-Participant and winner at Startup weekend Haryana.

STARTUP WEEKEND, KURUKSHETRA

Startup Weekend yet again witnessed a tremendous turnout, primarily from the students of Kurukshetra University and National Institute of Technology. The major aim of the event was focused in the interest of women, empowering and uplifting the women folk of the state of Haryana. Amongst the huge spread unrest, violence and agitations across Haryana, it could not deter these women from showcasing their talent in the startup weekend Kurukshetra. Filled with unmatched enthusiasm and energy, the turn up and response was an overwhelming one. As far as the culture of Haryana is concerned, the women were ethnic yet well rounded individuals with zeal to win.

The ideas and innovations brought by the participants were fresh and unconventional, reflecting the amount of research and diligence that went into them. From presentations, surveys, market research, business strategies, cost structures and implementation, were some of areas touched upon by the respective teams. Some amazing ideas with prototypes ready were presented by the students. Many major sectors were covered ranging from farming, engineering, and commerce to research and development.

Women took the stage with confidence guided by determined will and clear vision, to bring about a drastic change in this male dominant state. Haryanvi women have the potential to be great entrepreneurs, a little support in the form of education, infrastructure facilities and societal openness, could unleash an ecosystem of startup in Haryana, as witnessed by the rest of the country. Such platforms if provided to the youth, women in particular, would certainly change the face of Haryana.
STARTUP WEEKEND, GURGAON

Startup Weekend, Gurgaon held under the aegis of ‘Happening Haryana’ and Startup Acceleration Chamber of Commerce(SACC), turned out to be a life changing event for many. One of the highlights, being the enormous student participation, from every nook and cranny of the State of Haryana. Rohtak, Sirsa, Kurukshetra, Chandigarh, Sonipat, Panipat, Hissar, are a handful amongst many cities.

The environment throughout the event was insistent and competitive, owing to the large proportion of the participation coming from top notch colleges. The presentations by these great young minds of the country were truly innovative and futuristic. Moreover, the level of vigor, confidence and groundbreaking ideas among the participants amazed even the jury members. As it’s generally said, “Where there is a will, there is a way” these students surely possessed unbeaten will and startup weekend directing and paving the way by providing this platform. More initiatives, like these, carry the ability to revolutionize the state of Haryana.

Addressing the major concerns of the participants, the government should not limit the mentoring and support in the form of opportunities, finance and infrastructure. Instead, they should be guided throughout their endeavor. Providing incubation centre’s and connecting them with the right people, would come as a great relief to these budding entrepreneurs of the state. Emboldening and smoothening the way today for them would reap manifold benefits in the future.

There is a new ray of hope among the youth of Haryana to get mentored and technology and financial support to build sustaining and employment generating Startups.

Sukhmani Samra-22- Volunteer at Startup Weekend-Economics graduate from SD College Chandigarh 2015.

SUMMARY OF STARTUP WEEKEND HARYANA

4th-8th March 2016-@North Cap University and Leela Ambience Hotel Gurgaon

Prepared by: SACC Team.
Presented to: Respected Sh. Vijai Vardhan- IAS and Chairman Startup Committee and respected Sh. Devender Singh-IAS and Principal Secretary Industries-Government of Haryana!
Winners and teams summary of Startup Weekend conducted for Haryana State Happening Haryana Program. This even happened at NORTH CAP UNIVERSITY from 4th-6th March 2016 and finals on 8th March at Hotel Leela Gurgaon. Over 80 from various parts of Haryana Participated.

Startup initiative by the Haryana Government has given a big boost to Student and professional community in Haryana as they are coming forward with their new business ideas and seeking support from Government and SACC in terms of Space support, Mentoring and funding and incubation support.
